

# FOREVER PURE DRINKING WATER

## Kinetico K5 Drinking Water Station® with VOC Guard

Alleviate your water worries, today and tomorrow, with clean, crystal clear, worry-free drinking water.

- Certified Contaminant Removal
- Customizable and Expandable
- Convenient and Economical
- Abundant Supply of High Quality Water

## A difference you can see, smell and taste

untreated vs. treated water

We can no longer take the quality of our drinking water for granted. Eliminate nearly everything from your home's water that isn't water with the K5®.

Enjoy clear, pure water without unpleasant tastes or odors right from the tap. High quality water will also improve your water-based beverages and food prepared with water.

## Better water brilliantly designed

Only the Kinetico K5 Drinking Water Station with VOC Guard gives you this level of protection, flexibility and customization while supplying you with unbelievably great-tasting, high quality water.

### ① PreFilter

The PreFilter significantly reduces chlorine used in large-scale municipal water treatment, as well as sediment particulates down to 1/16 the diameter of a human hair.

### ② Reverse Osmosis Filtration

Through a process known as reverse osmosis, water is forced through a semi-permeable membrane that filters inorganic contaminants like PFOS/PFOA, metals and nitrates.

### ③ FlexFiltration

Revolutionary FlexFilters provide customizable filtration to tackle your water's individual filtration needs. Add one more cartridge or none - the choice is yours.

### ④ VOC Guard

The VOC Guard filter significantly reduces volatile organic compounds (pesticides, paints, cleaning supplies and other chemicals).

### ⑤ PostFilter

The PostFilter significantly reduces any remaining inorganic compounds that could cause foul taste or odor.

## FlexFiltration Cartridges

-  **Mineral Plus<sup>†</sup>**—This additive cartridge lets you add minerals such as magnesium and calcium to your treated drinking water
-  **Purefecta<sup>®</sup> Guard**—Generates biopure drinking water, significantly reducing 99.9999% of bacteria and 99.99% of viruses
-  **Arsenic Guard<sup>®</sup>**—Specifically designed to filter arsenic

-  **Perchlorate Guard<sup>†</sup>**—Significantly reduces the amount of perchlorate, a byproduct of certain forms of manufacturing

-  **Chloramine Guard<sup>†</sup>**—Significantly reduces chloramine, a chemical used to treat municipal water sources

<sup>†</sup> These cartridges are not tested and certified by WQA.

## K5's Innovative Features

**PureMometer<sup>®</sup>** indicates how much filter capacity remains

**MACguard<sup>®</sup>** shuts off flow automatically when filters expire to safeguard against impurities

**EverClean<sup>®</sup> Rinse** prolongs filter life by cleaning the system with the very same high-quality water produced by the system

**QuickFlo<sup>®</sup>** provides consistent flow rates regardless of whether the storage tank is full or nearly empty

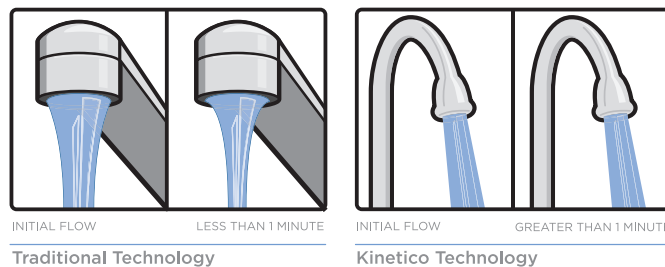

**Exclusive Faucet** elegantly dispenses a steady stream of great-tasting drinking water

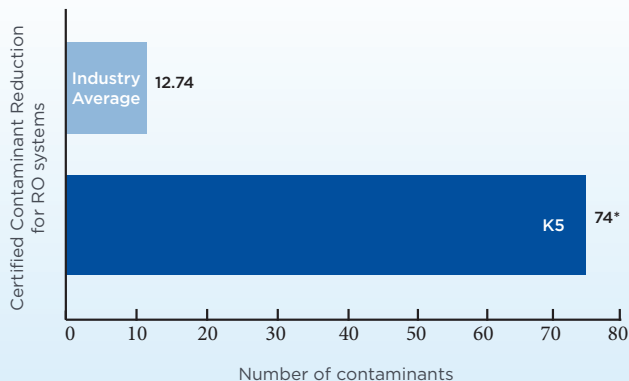

## Outperforming all others

The Kinetico K5 Drinking Water Station with VOC Guard reduces a variety of contaminants, including metals, nitrates, unpleasant tastes/odors and volatile organic compounds like pesticides, paints, PFOS/PFOA, cleaning supplies and other chemicals.

It is not only certified to significantly reduce more contaminants than other comparable systems, it also offers higher production rates. The K5 with VOC Guard produces more than 39 gallons of drinking water daily, with higher, more sustained flow rates with QuickFlo technology.

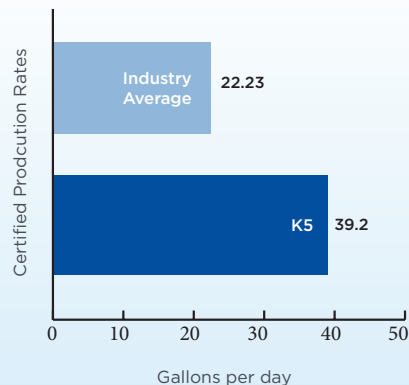

### Significantly Reduces More Contaminants

**\*NOTE:** K5 Reduction Claims are based on the K5 when used in the following configuration: silver VOC Guard cartridge, white Purefecta® Guard cartridge, green membrane cartridge, and orange postfilter cartridge.

### Higher Production Rates

## Environmentally yours

Kinetico has spent half a century improving water and lives with environmentally-responsible innovation in water technologies. Our non-electric, highly efficient water systems provide clean and healthy water to people all over the world in a sustainable way. Better water flows from better thinking.

## Made in the USA. Put to work worldwide.

Since 1970, Kinetico has been designing and manufacturing water treatment systems right here in the USA that solve a variety of water problems. Kinetico continually develops and offers products to meet the diverse water treatment needs of people in nearly 100 countries worldwide.

## Our professional promise

Kinetico dealers hold themselves to loftier standards. Nobody brings a higher degree of professionalism into your home. [We promise.](#)

### Independent Laboratory Certification

The Kinetico K5 Drinking Water Station is Tested and Certified by WQA against NSF/ANSI Standards 42, 53, 58, 372 and CSA Standard B483.1-Drinking Water Treatment Systems. Removes 99% Perfluorooctanoic Acid (PFOA) and Perfluorooctane Sulfonate (PFOS). Conforms to NSF/ANSI 53 for VOC reduction. (Refer to the Performance Data Sheet for individual contaminants and reduction performance.)

When used in conjunction with an air charge tank and prefilter (Part Nos. 9309A or 9461A), the Kinetico K5 Drinking Water Station equipped with the Purfecta Virus/Bacteria Guard cartridge is Tested and Certified by WQA against NSF P231-Microbiological Water Purifiers.
