

KINEX

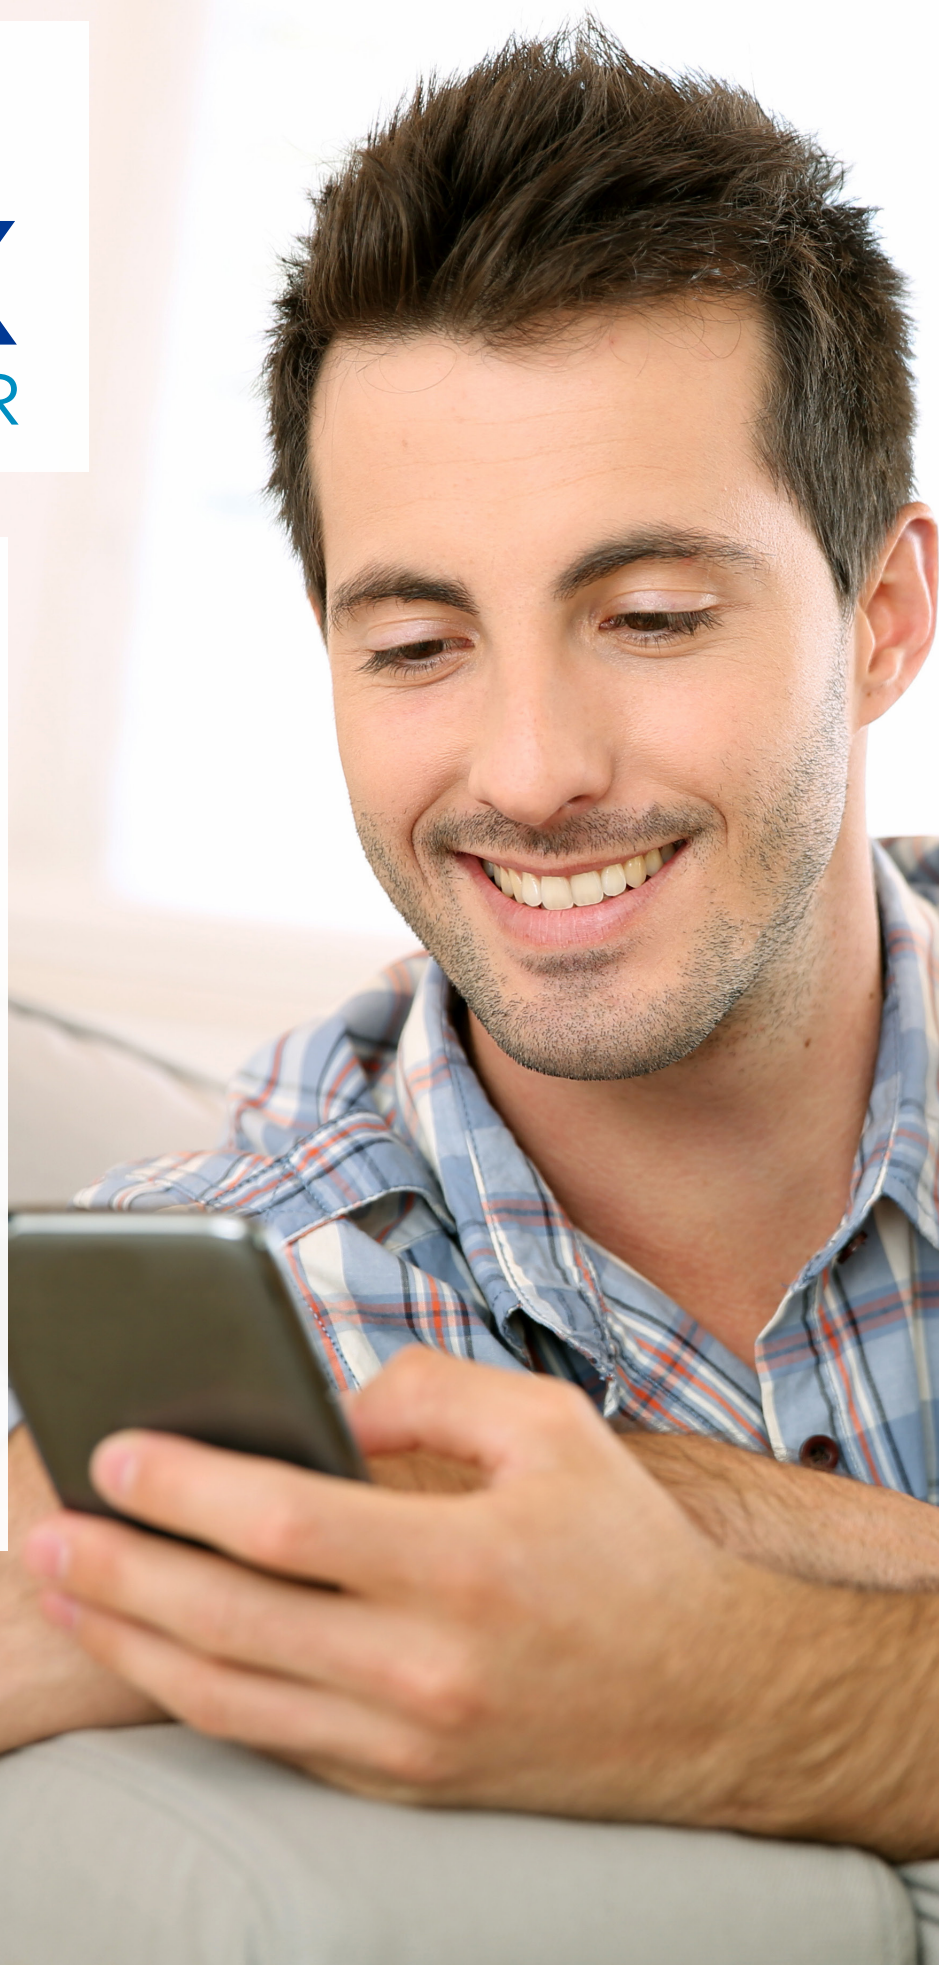

SALT MONITOR

Get salt alerts on your smartphone with the Kinex Salt Monitor and The Kinetico App.

- No guessing how much salt is in the tank
- No hard water because the salt ran out
- No stocking too much salt, just in case
- No manually checking your brine tank

You can also request service from your authorized, independent Kinetico Dealer from **The Kinetico App**.

Get connected and ask for the **Kinex Salt Monitor** today.

Your Soft Water Just Went From Easy to Easier!

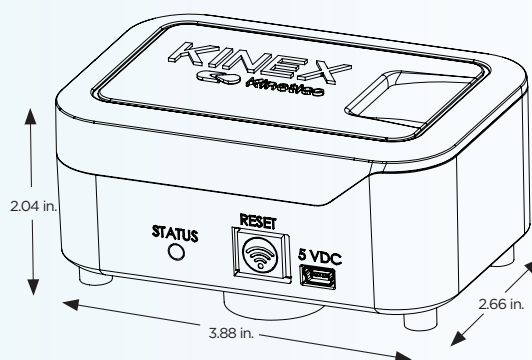

The Kinetico Kinex Salt Monitor puts real-time information and control in the palm of your hand.

Auto Alerts & Alarms. Get alerts and alarms that notify you when the salt level or battery drops to 25% and again at 10%.

System Performance. Check your salt level remotely and your monitor's status quickly and easily right on the app.

Usage History. Conveniently check:

- most recent salt fill date.
- estimated days to deplete the current salt in the brine tank, or a 40lb bag based on usage.
- estimated number of bags needed to reach the maximum brine tank level.
- salt consumption data in simple graphs.

Kinetico Kinex™ offers a “hands-off” experience. Your authorized, independent Kinetico dealer will install your Kinetico Kinex™ system and provide any needed service including salt monitoring.
